Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Sole agent in Newport,

THE AUTUMN OF THE HEART.

The corn bows its head to the sickle,
The nightingale's murmur is hush'd
Rain tears from the arbutus, trickle,
Beech fruits in the forest lie crush'd
We have fought, but the battle is ending;
We are wounded and sick from the fight;
Blue shadows around us descending
Breathe kisses of night.

We have journey'd not heeding our danger,
Cried in wild supplication above;
We have loved till our eyes lost their anger,
And hearts became sleepy with love,
Red roses are dying which wreath'd us,
We are stamp'd with the iron that sears;
Dead love in compassion bequeath'd us
Its relic of tears.

Ah, me! but the summer was pleasant;
Shall we die and be dreaming again?
Would we yield the dull days of the present
For an hour of the past and its pain?
Do we hunger for kisses that stung us?
Or long for the lips that have lied?
Must we stoop for the gauntlet they've flung us?
Weep? creep to their side?

We cringe to these sowers of sorrow,
We cry for a blighted caress;
We dream for a night; on the morrow
We gather the tares of distress.
We bow to our grief and privation,
We pay for the pleasures that cloy;
Our work is to build the foundation
They love to destroy.

Oh! woman with hearts brimming over
With passions we never can feel,
The world is too weak to discover
The mystical love you conceal.
Our sorrow, not ours the reproving;
Your triumph, and ours the defeat?
Our lives are made bitter from loving,
Why you are so sweet?

SPECTACLES

Too much cannot be said as to their SUPERIORITY over the ordinary glasses worn. There is NO GLIMMERING, WAVERING OF THE SIGHT, DIZZINESS, or other unpleasant sensation, but on the contrary, from the peculiar construction of the Lenses, they are *soothing and pleasant*, causing a *feeling of relief* to the wearer, and

Producing a Clear and Distinct Vision,

As in the NATURAL HEALTHY SIGHT. They are the only Spectacles.

The ability of the members of this firm to adapt Spectacles to all sights, *even when others have failed,* is too well known to need comment.

They will have with them a large assortment of Gold, Silver, and Steel SPECTACLES; also, Gold, Silver, Steel and Shell EYE GLASSES, of the finest description and finish.

The GLASSES are ground under their own supervision at their manufactory at Hartford, and persons may rest assured that every care will be taken in the judicious selection of their Spectacles.

Those needing the aid of Spectacles or suffering from WEAK or DEFECTIVE VISION should not fail to call.

GRANT AND JOHNSON.

The correspondence which has just been published places both these men before the public in a new light. It is perfectly evident that Johnson attempted to employ the arts of a political trickster and involve the General of the army in an act of insubordination by giving him orders to disobey Stanton, without committing those orders to paper, and thus make Grant a criminal while nothing could be discovered to criminate the principal offender. Grant saw through the scheme as clearly as he saw the hollowness of the "Confederacy," and, "determined to fight it out on this line," he demanded the orders to be given in writing and when he got them refused to commit such a violation of the laws.

As to the agreement to hold on to the War office against Stanton or to notify the President of his intention to surrender it, that becomes a mere question of veracity between the two men. Grant gives a clear, straightforward account of the facts in his usual style of using few words, and Johnson writes a rambling, verbose letter giving his version, to which the General afterwards rejoins a flat contradiction. Which of the two is more worthy of credit, let the whole past history of each decide.

General Grant assigns as his reason for accepting the War Department temporarily, the fear that the President would, upon Stanton's suspension, appoint some one to the place who would use the office to hinder the operation of the reconstruction laws. Mr. Johnson plainly says he wanted to know when Grant was going out so that he could appoint some one else before Stanton could get in; and the General says the same reason holds good against his advising Stanton now to resign. His last letter, dated Monday last, concludes as follows:

"And now Mr. President, when my honor as a soldier, and integrity as a man, have been so violently assailed, pardon me for saying that I can but regard this whole matter from beginning to end, as an attempt to involve me in the resistance of a law, for which you hesitated to assume the responsibility, in order thus to destroy my character before the country.

I am in a measure confirmed in this conclusion by your recent order directing me to disobey orders from the Secretary of War, my superior and your subordinate, without having countermanded the authority I am to disobey.

With the assurance, Mr. President, that nothing less than the vindication of my personal honor and character could have induced this correspondence on my part, I have the honor to be,

Very respectfully,
Your ob't servant,
U. S. GRANT, General.

Literary Notices.

Charles N. Emerson, Assessor of the Tenth Massachusetts District, has issued a new edition of his Hand-Book of the Internal Revenue, which is a succinct and correct guide to a complete knowledge of the Revenue Laws and the practical operation of them. It tells every man for what he is taxed, and gives much information upon the whole subject. Published by Samuel Bowles & Co., Springfield, Mass.

The Public Spirit for February is at hand with a full and varied table of contents. The Wisdom of Masks, My Valentine, Widow Brown's Oil Well, more Recollections of Twenty Campaigns, a Song and Music entitled Father, Stay Home, &c., are among its attractions. Advance of Union Pacific Bonds.

We learn from the officers of the Union Pacific Railroad Company that the price of the Company's First Mortgage Bonds has been advanced from 90 to 95 cents on the dollar, and that they will probably be placed at par before long. The sales of these bonds during the past few months have been very large; ten million dollars having been already disposed of to parties throughout the country.

So active was the increasing demand for these securities that it was probable that five millions more would be sold in the first week of February, if the price had been allowed to remain at 90. It has been frequently asserted in the advertisements of the company, and in our editorial columns, that the price would probably be advanced, and those who took the hint, and bought at 90, may now see the wisdom of so doing. The Company is now in high credit, and has a handsome surplus of cash on hand for the future prosecution of the work of construction. We are gratified at these evidences of complete prosperity on the part of this great corporation.

It is stated by leading tobacco manufacturers now in Washington that there have been frauds on the revenue, in the form of taxes evaded, on about one hundred and fifty million pounds of tobacco.

Treatment of Political Prisoners in England.

Mr. O'Donovan Rossa, editor of the newspaper called "The Irish People," states in his letter that he smuggled out of prison some account of the treatment there. He was tried for complicity with Fenianism and sentenced to penal servitude for life.— Each letter, (of which he has written five to his wife) according to the prison rules, has but twenty one lines, was submitted to Governor Morris, (don't forget his name) who took delight in mutilating them and erasing words that would have given joy and comfort to his poor stricken wife. In twenty nine months' imprisonment, the magnanimous British Government has allowed his wife to visit him twice, each visit being of twenty minutes' duration, with a wire screen between them. Oh, great and mighty nation! how magnanimous, to give the poor wife twenty minutes. For writing to the Secretary of State complaining of his treatment, he received 72 hours' solitary confinement on bread and water—eight ounces of bread and a pint of water, morning and evening. For trivial offences, he has been thirty four days and nights in the cells on bread and water, without light or fire. All the indignity that petty malice can heap on this poor prisoner is inflicted on him. He is compelled to work among a party of English felons. The brutal treatment he receives is telling forcibly on his health. Talk of the cells of the old Spanish Inquisition—all its horrors are being revived in British prisons. We have not time or room to give more extracts from the unfortunate man's letter, but it will be found in the *Tribune* of Feb. 1st, a paper whose columns are always open to the cause of humanity.

To sum up the corruption of the British government and courts, Gov. Eyre, the villain who tortured witnesses by the lash and hung them afterwards to force them to give evidence against his victim Gordon, walks at large, while O'D Rossa, for publishing a Fenian article in this paper, is condemned to imprisonment for life.

Let Gov. Morris's name be passed around the world as a fit tool for a brutal government. King Theodore, of Abyssinia, has not yet set his English prisoners to hard labor, or kept them on bread and water, or confined them in dark underground cells.

The British government must claim preeminence in this enlightened nineteenth century for barbarity above any nation on earth, except the late Southern Confederacy. No other nation has treated its prisoners with the cruelty that the British government does its political victims. R. S.

GENERAL ASSEMBLY.

JANUARY SESSION—AT PROVIDENCE.

WEDNESDAY, Feb. 5.

Senate.

The Senate met at 11 o'clock, His Excellency the Governor in the chair.

A message was received from the House, communicating sundry matters.

A resolution relative to the Pawtucket Turnpike was passed in concurrence.

The petition of the R. I. Hospital Trust Company, for an amendment of charter, with an act of amendment as prayed for, was referred to the committee on the judiciary.

The petition of Harriet Adeline Church, for leave to sell certain real estate; which was referred to the judiciary committee.

His Excellency the Governor presented the report of the corporation of Brown University, relative to the U. S. land grant, which was referred to the committee on education.

Mr. Colwell, from the judiciary committee, reported back act in addition to Chapter 156 "Of Testate and Intestate Estates," recommending the passage of a substitute. The substitute provides for the sale of real estate belonging to persons dying out of the State. The bill was passed to a second reading and ordered to be printed.

Mr. Sheffield, from the judiciary committee, reported back the act authorizing the Mayor of Newport to offer rewards for the apprehension of offenders against the public peace, the committee recommending the passage of a general law as a substitute. The substitute was read and passed. It authorizes Town Councils to offer a reward of $500 in many cases.

Mr. Weeden, from the special committee, to whom was referred the letter of Major Houston, U. S. Engineer, to the Speaker of the House, reported the following resolutions, which were passed:

WHEREAS, Congress by act of July, 1867, ordered a survey to be made at Block Island with reference to constructing an artificial harbor there, which has been made and reported, and,

WHEREAS, The interests of the large coasting trade between New York and Boston, and the general marine interests of the United States, would be vastly benefitted by the proposed harbor at this exposed point of our coast. As, also, great advantage would result to our navy by giving our vessels a harbor of refuge and supplies, especially in time of a foreign war, therefore

Resolved, That our Senators and Representatives in Congress are hereby requested to use all means in their power to secure the necessary legislation to complete the required work at Block Island.

Resolved, That the Secretary of State is hereby directed to transmit a copy of these resolutions to each of our Senators and Representatives in Congress, and also to the Chamber of Commerce in New York, and Board of Trade of Boston.

Mr. Sheffield gave notice that to-morrow or some subsequent day, he should ask leave to introduce a bill to protect certain fisheries on Block Island.

Central Pacific Railroad Bonds—Change of Price.

The sales of the First Mortgage Bonds of the Central Pacific Railroad Company have recently been so rapid and extensive that the full amount which the Company had proposed to sell at the original price of 95 and interest, has been marketed, and the price has been advanced to par and accrued interest.

The progress of the road, the prosperous condition of the Company's affairs, their abundant cash resources, and high credit, would seem to fully justify the advance in the price of their First Mortgage Bonds, and to afford a sufficient guarantee of an active demand at the advanced rate.

A GOOD BILL.—A bill has been reported in Massachusetts authorizing towns to elect women as members of school committees.

NEWPORT, Feb. 6. 1868.

MESSRS. EDITORS:—In your issue of yesterday, I read the rejection by the City Council of the proposition of the board of Firewards to purchase a lot of land and erect a suitable building for the use of the Hook and Ladder Company. Their final action in this matter is no more than might naturally have been expected, but then it was hoped that, for once in their lives, the Council might have taken the common sense view of the matter. No one will deny the very palpable fact that the Hooks and Ladders are among the essentials of the Fire Department, and it strikes me that it is the most important branch of the service. Imagine, for instance, that the immense hotel of Councilman W. should take fire and he, at the time, should be in the third or fourth story, with no means of egress except by assistance from without. Do you not think, Messrs. Editors, our friend W. would be singing out for the thirty five foot ladder about that time? Let each member of the Council take this matter home to himself, let him make personal application and place himself in the same lamentable state of mind that I have imagined Councilman W. to be in, in the case of the destruction of his hotel. The Hook and Ladder Company have been very patient and very forbearing. We have put up with many things that no other company would submit to, and now when we come to the Council, (I think this is the third time) and ask them to give us a suitable building where we can take the requisite care of the property, entrusted to our keeping by the city, and also a suitable hall for our meeting, without being obliged to use the Council Chamber, then the Council, after due deliberation, do not think it worth while to comply with the petition, endorsed as it is and has been, every time it has been presented, by the board of Firewards, and so they conclude they will reject it again and put the matter off another month. It is the last feather that breaks the camel's back, and our worthy citizens may be aroused some morning or during these cold winter nights by the fearful cry of "fire" and find themselves minus the Hook and Ladder Company.— This is no idle menace, but one which will actually come to pass unless some speedy action is taken. W. A. J.

ACADEMY OF MUSIC.—We are informed that Mr. Buchanan has postponed his engagement in our Academy of Music, until the 24th inst., when he will positively open it for a week.

The Providence Journal mentions his company now performing to full houses in that city, as follows:

ACADEMY OF MUSIC.—The renowned tragedian, Mr. McKean Buchanan, gave his thrilling representation of the character of Richlieu last evening to a very appreciative audience. Bulwer's magnificent verse, containing so many passages that have become aphorisms of the language, was rendered with great elocutionary power, and the author's conceptions were vividly interpreted. This evening a very rare treat is to be given us in Mr. Buchanan's "Hamlet" as all will understand who know anything of the actor. His interpretations of the part of the royal Dane is original, finished and elaborate to the last degree, the result of keen insight and careful study. It is full of telling points, which exact the constant attention of the auditor, and enable him to appreciate the sublime creation of the bard or dramatist as he has never before done. Mr. Buchanan will be ably seconded by Mr. E. W. Watson, Miss H. Orton, and the other members of a numerous company. He has acted with distinguished success in nearly all the theatres of the world where the English language is spoken, and has been acknowledged for fifteen years, in Europe and America, as one of the heads of the profession. We are rarely privileged in the opportunity of seeing a series of his most celebrated personations during the present week.

Shanahan's Opera House was well filled last night despite the storm, to witness the first entertainment of the Boston Theatre Company. The piece 'Nobody's Daughter,' seemed to give great satisfaction and was well played throughout. For this evening Shakspeare's tragedy of 'Richard 3d' is announced and as it is seldom a company is found of sufficient numbers to properly present it, we may look for an excellent attendance. The rich dresses, armors, and appointments have been brought from Boston, and manager Leslie assures us that the tragedy will be carefully and thoroughly performed and that our citizens will have a better opportunity than ever to judge the merits of the Boston Theatre Company.

THE WEATHER.—The snow storm which began here about five o'clock yesterday afternoon, began at eight in the morning at Washington. The snow accumulated with rapidity here in the evening, but before midnight it began to rain. This gave the snow a *sloshy* consistency which adhered to the sidewalks, and when it became colder toward morning with a change of wind, laid the foundation for as villainous a condition of the sidewalks as could be desired. We venture the assertion that no city around can show worse sidewalks than Newport can to-day.

The steamer from New York was detained by the storm and did not arrive until about half past ten this forenoon.

THE GOOD TEMPLARS.—This temperance organization has been remarkably successful since it went into operation in this city a few months ago. The fact that it has enrolled more than two hundred members in a single society is probably unprecedented in the history of the temperance reformation in this city. Some who are active members were in the practice, a short time since, of indulging in those beverages from which Good Templars totally abstain. The Lodge in this city, we are assured, does not contemplate removing from its present quarters, but, in order to accommodate its increasing numbers, it may be divided into two lodges at no distant day, which can occupy the room, on their respective evenings, in which the meetings are now held.

RUNAWAY.—Two horses belonging to Mr. Seth Bateman and attached to a sleigh, started about noon, Wednesday, from near the corner of Freebody Avenue and Bath Road, and ran south to the rear of the Ocean House. The sleigh was overturned and the driver, Mr. Carlyle, being thrown out with violence, sustained severe injuries. He was attended by Dr. Turner and it is believed he will soon recover.

LIGHT INFANTRY.—The Newport Light Infantry took possession of their new armory in the upper front room of Shanahan's Opera House, last evening and held their first drill in the new quarters. The brilliant light shining through windows curtained with the red, white and blue, gave the front of the building a fine appearance from the street.

Eighteen men engaged in cutting wood in the forest of Rothwald, in Austria, recently met in a hut to take breakfast, when suddenly they were overwhelmed by an avalanche of snow and were swept away, hut and all. Three days elapsed before they were missed, and when a search was made for them eleven were extricated from the snow, seven of whom were dead, and the other four were so exhausted by cold and hunger that they are not expected to live. The other seven have not been found.

A Connecticut paper is responsible for this: A gentleman who came from New York in a train full of democratic delegates, Wednesday morning remarked, when the conductor took his ticket, that he thought his ticket was first class. The conductor told him he was right, when he rejoined, "Well, either I am in a second class car, or else there's going to be a democratic convention!"

EMINENT MEN OF SCIENCE have discovered that electricity and magnetism are developed in the system from the iron in the blood. This accounts for the debility, low spirits and lack of energy a person feels when this vital element becomes reduced. The Peruvian Syrup, a protoxide of iron, supplies the blood with its iron element and is the only form in which it is possible for it to enter the circulation.

BRIGHTON CATTLE MARKET.

FOR THE WEEK ENDING FEB. 1, 1868.

Beef Cattle.—Prices

Weekly receipt of Cattle, Sheep and Swine, carefully prepared for the current week:—

	Cattle.	Sheep & Lambs.	Swine.
This week	1001	2547	....
Last week	853	2498	....

Prices—Beef Cattle.—Extra, $13 50 a $13 75; first quality $12 50 a 13 00; second quality, $11 25 a 11 75; third quality, $9 00 a $11 10 per cwt.

Prices of Store Cattle—Working Oxen per pair, $150 a $300.

Milch Cows and Calves—$55, $80, $75 $85 a $100.

Yearlings $20 a $30; two year olds, $25 a 46; three year olds, $45 a 66.

Western Fat Swine—Live, 7 1-2 a 8c per lb; dressed, 9 1-2 a 10c per lb.

Sheep and Lambs—In lots, $3 00, $3 25, a $3 75 each; extra, $4 50 a $6 50, or from 4 to 8c per lb.

Spring Lambs—None.

Hides, 9 a 9 1-2c per lb; Tallow, 7 a 7 1-2c per lb; Pelts, $1 1-2 a $1 each. Calf Skins 15c per lb.

Classification of Cattle and Sheep—N. B.—Beef, extra and first quality include nothing but the best large, fat Oxen; second quality includes Oxen, and two and three year old Steers.

Sheep—Extra includes cossets, and when those of inferior quality are thrown out of the lot.

REMARKS.

Cattle—The market is a shade lower in prices on cattle this week. The number from Albany was larger, and the demand for beef has not increased in proportion; prices are at too high rates for many of the consumers, who avail themselves of mutton and pork. The difference in prices on all grades, is 25 cents per cwt off. The quality this week was fair, many of the Eastern cattle being extra.

Sheep—Receipts for the week 2519, mostly commissioned.

PRICE ADVANCED—98 AND INTEREST!
THE
Central Pacific Railroad
THE FIRST AND PRINCIPAL PORTION OF THE
National Trunk Line Across the Continent
is being rapidly carried forward by an unprecedented working force; and it is reasonably certain that the CONTINUOUS OVERLAND RAILROAD CONNECTION FROM NEW YORK TO SAN FRANCISCO WILL BE MADE IN 1870.

The United States Government furnishes, upon a subordinate and contingent lien, half the means for constructing the Main Stem Line; and besides an absolute grant of 12,800 acres of valuable public lands per mile, the Central Pacific Railroad Company have received from California sources, donations and concessions worth more than $3,000,000. The available resources of this Company are therefore abundant for the purpose, amounting to $77,000,000 on the first 726 miles of the Line, including loans secured by a First Mortgage upon the whole property, to the same amount only as the U. S. Subsidy Bonds.

The results already attained, although under comparatively unfavorable circumstances, afford substantial ground for believing the CENTRAL PACIFIC to be the
Most Favored, Productive, and Valuable Railroad Enterprise in the Country.

In consequence of the large and rapidly increasing demand, the price of these Bonds has been advanced, and the Company are now offering for sale, a limited amount of their
First Mortgage Six Per Cent. Bonds,
Principal and Interest Payable in Gold Coin,
in sums of $1,000 each, at 98 per cent. of their par value and accrued interest from January 1st, in currency.

These Bonds, it is believed, possess the elements of *safety, reliability and profit*, in a greater degree, than any other class of Corporate Securities now offered, and are therefore very desirable for steady investments of surplus capital.

Investors will bear in mind the following advantages:

I. They are the first mortgage on one of the most valuable and productive lines of railroad in the world.

II. The actual earnings from local business in 1867 were more than four times the annual interest engagements.

III. The hard part of the work is now done, and the prospects of rapid completion are favorable.

IV. The Company have liberal subsidies, which enable them to prosecute the work with great vigor.

V. The management has been exceedingly prudent and fonerd.

VI. There is already a large and growing settlement on the completed and graded line.

VII. The lands promise to be of immense value, 37,000 acres having been already sold.

VIII. Both principal and interest are explicitly made payable in gold coin.

IX. Both the aggregate amount of issue and their standing in Europe will insure for them continued activity and a high rank among standard securities.

At this time they yield nearly
Nine per Cent. upon the Investment.

Holders of Government Securities have an opportunity of exchanging them for Central Pacific Bonds, bearing an equal rate of interest, with the principal abundantly secured, and of realizing a profit of from ten to fifteen per cent. in addition.

Orders sent with the funds through responsible Banks or Express Companies will receive prompt attention. Bonds sent by return Express, to any address in the United States, at our cost. Information, Descriptive Pamphlets, Maps, &c., furnished on application at the office of the Railroad Company,

CHRONIC DISEASES, SCROFULA, ULCERS, &c.
It is well known that the benefits derived from drinking of the Congress, Saratoga, and other celebrated Springs is principally owing to the Iodine they contain.
Dr. Anders' Iodine Water
contains Iodine in the same pure state that it is found in these spring waters, but over 500 per cent. more in quantity, containing as it does 1 1-4 grains to each fluid ounce, dissolved in pure water, without a solvent, a discovery long sought for in this country and Europe, and is the best remedy in the world for Scrofula, Cancers, Salt Rheum, Ulcers, and all Chronic Diseases. Circulars free.

DR. WISTAR'S BALSAM OF WILD CHERRY.
Where this article is known it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, diseases of the throat, Chest, and Lungs, as well as that most dreaded of all diseases, Consumption, which high medical authority has pronounced to be a curable disease. Those who have used this remedy know its value; those who have not, have but to make a single trial to be satisfied that of all others it is the remedy.

A REMARKABLE CASE.
From Mr. John B. Darling, Watchmaker, Putnam, Connecticut.
"I have used Dr. Wistar's Balsam of Wild Cherry in my family for several years, and always with the most beneficial results. My wife being of delicate habits, has always been troubled with a hard, dry, hacking cough whenever taking cold, and could obtain no relief from the various remedies she employed until she used Wistar's Balsam, the effect of which was astonishing. A year ago a young man in this place was taken with bleeding at the lungs, with a severe cough, and was given over to die by our best physicians. It being evident to all that his disease was Consumption. Upon hearing of his case my wife sent him a bottle of the Balsam, which he took, and soon, to the astonishment of his friends, he was at his accustomed occupation. In other cases we have administered the Balsam to the Consumptive, and always with the best of success. These statements are simple facts, which can be vouched for at any time by calling on me at my store."
None genuine unless signed "I. BUTTS" on the wrapper. Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

TELEGRAMS.

NEW ORLEANS.

NEW ORLEANS, Feb. 5.—An ordinance annexing Algiers to the city of New Orleans, was offered as an article of the constitution, but was tabled.

Several articles to the constitution were adopted regulating the school question. All children are to be admitted to the public schools without distinction, and no special school to be established for the exclusive use of any color.

All public institutions of learning, including universities, wholly or in part under the control of the State, to be open to all persons irrespective of color.

Articles were adopted to provide for the election of a superintendent to serve four years. Also, for an appropriation from the public funds for the maintenance of the schools.

The warrants of members of the Louisiana convention, signed with a cross mark, have been discounted on the street.

STORM AT NEW FOUNDLAND.

HARBOR GRACE, Newfoundland, Feb. 5. One of the most severe and terrific storms ever known in Newfoundland has been experienced within the last two or three days. On the 3d inst. a most fearful gale prevailed, driving the falling snow furiously before it.

It is reported that thirty people perished from the cold and in the snow. Mr. McKay, the Superintendent of the Newfoundland Telegraph lines nearly perished between Hearts Content and this place.

Washington Evening News

—o—

At a meeting of the House Judiciary Committee the resolution of inquiry into the alleged injudicious utterances of one of the Justices of the Supreme Court at a social gathering, was taken into consideration. Mr. Wilson of Iowa, Chairman of the Committee, was called to the stand as a witness; the sum of the testimony given by that gentleman was that he had heard remarks of the tenor of those charged in the resolution under consideration fall from the lips of Chief Justice Chase and Associate Justices Davis and Field. All of these gentlemen had pronounced the pending reconstruction bill unconstitutional.

A rumor was current last evening, that McCulloch and Seward have both asked the President to accept their resignations. The President's action on the anti-contraction bill is given as McCulloch's reason for resigning, and Seward is displeased at being overruled in his policy on the Alabama claims.

The President was engaged in preparing a response to Gen. Grant's letter, and it is said that he has demanded of Messrs. Seward, McCulloch, Welles and Randall, endorsements of his statement of what transpired at a Cabinet meeting which Gen. Grant has so flatly contradicted. The President's conduct is censured here by all loyal men, and his impeachment is again talked of.

The *Heralds* Washington special says: It is rumored that Gen. Rosseau will be recalled from his command on the Pacific coast to replace Gen. Meade, who is likely to be removed by the President.

AMERICAN HOUSE,

BOSTON, MASS.

THE very important and extensive improvements which have recently been made in this popular Hotel, the largest in New England, enable the proprietors to offer to tourists, Families, and the Travelling Public, accommodations and conveniences superior to any other Hotel in the city. During the past summer additions have been made of numerous suites of apartments, with bathing rooms, water closets, &c., attached; one of Tufts' magnificent passenger elevators, the best ever constructed, conveys guests to the upper story of the house in one minute; the entries have been newly and richly carpeted, and the entire house thoroughly replenished and refurnished, making it, in all its appointments, equal to any hotel in the country.

Teas! Teas!! Teas!!!

Something New.

The Great American Tea Company Outdone.

W. & P. BRYER,

No. 15 Broad Street,

MAKE the following propositions: They will put up at the market price one hundred pound papers of English Breakfast Oolong and Hyson Teas, such as they are now retailing, for one dollar per pound, and deliver the same on the 25th of September at the residences of purchasers. In every tenth pound will be enclosed a one dollar greenback, so that the purchaser will get his tea for nothing. By this arrangement no one will pay above the regular price, so that there is no possible loss. As will be seen, the tea is sold on the average at a deduction of ten per cent., or at our

WHOLESALE PRICE,

which is simply what is proposed to be done.

We are only enabled to do this by our connection with an extensive wholesale tea-store in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned in exchange for any other kind or quality in the store. The whole thing is to be done on perfectly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of packages are not sold at the day of delivery the proportionate number will be disposed of according to the above terms.

There are not a cheap tea provided for the purpose, but a **regular standard article.** Other grades may hereafter be sold in the same way. Now is the time to send in your orders.

Watches for the Million !

ARRANDALE & CO'S GREAT WATCH CLUB.

Everybody needing a good watch, and wishes to get it at the lowest possible price; a horde of swindlers knowing this have contrived various ingenious devices to get people's money, and then either fail to send a watch, or send one that is worthless as a timekeeper. ARRANDALE & CO. have now perfected arrangements by which, for the small sum of $10, a good and reliable watch may be CERTAINLY obtained. They have formed a GREAT WATCH CLUB on the following plan. Certificates containing the numbers of all the watches named in our wholesale list (which is sent to all applicants) are mixed up, enclosed in envelopes, and sold for 25 cents each. Every certificate is warranted to be for a watch, and as will be seen on reference to the list, none are of less value than Ten Dollars, whilst some are worth $200. We undertake to send any watch drawn whatever may be its value for $10, and in order that every one may absolutely depend upon getting a first class timekeeper, we guarantee that every purchaser of One Dollar's worth of certificates shall receive at least one for watch No. 163 on our wholesale list, sent post free, which is a first-class patent lever, a handsome and reliable watch, in sterling silver hunting case, and usually sold for $30. You will certainly get such a watch; and, besides, you may get a Gold Chronometer worth $200. We sell the certificates as follows: One for 25 cents; Five for 50 cents; Six for $1; and Twenty for $3. To those sending $1, we will send a handsome chain gratis. To those sending $3 we will send a Gold Chain warranted not to tarnish in 20 years. Parties getting up larger clubs will receive liberal presents, particulars of which may be learned on application. As it is our intention to do a strictly honorable business, and do insure our customers from liability to loss, we will send our watches, if desired, without money, instructing the Express agent to collect only on delivery. If we are desired to forward watches by mail, the money must be sent to us by Bank Draft or Post Office Order, and it will then be at our risk. We will then register the package at our post office, and it will replace it free of charge.—If any watch sent is not approved, it may be returned and the money will be refunded. The reputation of our firm, which has been established for five years, and is well known in every part of the country, we trust will be deemed a sufficient guarantee that we will faithfully perform all we promise to do.

☞Every patron obtains a Watch by this arrangement, costing but $10, while it may be worth $1,000. No partiality shown.

We wish to immediately dispose of the above magnificent Stock. Certificates, naming the articles, are placed in sealed envelopes, and well mixed. Holders are entitled to the articles named on the certificates upon the payment of ten dollars, whether it be a watch for $1,000 or one worth less. The return of any one of our certificates entitles you to the article thereon upon payment irrespective of its worth, and as no article valued less than Ten Dollars is named on any certificate, it will at once be seen that this is

No Lottery, but a straightforward legitimate transaction, which may be participated in even by the most fastidious.

A single certificate will be sent by mail, post paid, upon receipt of 25 cts. Five for $1. Sixteen for $2.00, and elegant premium for $5. One Hundred and twenty and more valuable premium for $40. III.—They are Mirrors of the Times.

"No one can peruse them without conceding the author's great skill in grasping and delineating the characters which figure conspicuously in them."

"The study which enables the author to delineate so accurately the emotions and incentives to action which moved men and women of a past age must be of second nothing, and Louisa Muhlbach shows in all of her works a perfection which carries the reader into the very presence of the characters represented."—*Syracuse Journal.*

IV.—They are Historically Correct.

"Historically correct, and as entertaining as many of the volumes of Sir Walter Scott."—*Prov. Herald.*

"Louisa Muhlbach must have carefully and diligently studied the secret histories of the times and countries of which she writes, and her task is done well and effectively."—*Worcester Spy.*

"No Historical Novelist has labored so faithfully and successfully to reproduce a complete picture of past times and events."—*Utica Herald.*

V.—They are Original.

"It has agreeably surprised readers to find a new writer with such constructive genius and knowledge of character as Louisa Muhlbach possesses."—*Public Ledger.*

"Each succeeding novel adds to Mrs. Mundt's reputation as a writer of historic fiction."—*N. Y. Times.*

VI.—They are full of Imagination.

"She is not only the skilful joiner, but a deft-handed artisan."—*Christian Witness.*

"There is seldom any straining after effect, but it is really wonderful how Madame Mundt manages to sustain and increase the interest to the end."—*City Item.*

"The word-painting of the authoress is much more effective than the best efforts of the engraver."—*Illinois State Register.*

VII.—They Contain Anecdotes of Courts.

"Scottish history offered no fresher and more romantic material to the magic working hand of Sir Walter Scott than she finds in the annals of the German courts."—*Evening Gazette.*

"They are not to be found anywhere in human annals, unused, such magnificent, such superabundant materials for romance, as clog the chronicles of the Prussian and Austrian courts of the 18th century.—By their dress, their manners, their modes of thought, their language, they are almost as much separated from us as if they had lived one thousand years ago."—*Observer.*

VIII.—They tell about Emperors, Kings, and Queens.

"We learn from her not only how Frederick William and Frederick the Great, Joseph the Second, Voltaire, Rousseau, Baron Trenck, the Empress Catherine, walked and talked in their grand robes, but how they powdered their hair, flirted, and took tea."—*Register.*

"The choice of her subjects exhibits her genius.—She takes the time of Frederick the Great, Joseph the Second, for example, and upon the background of facts which the chronicles of the periods afford, she embroiders the bright and sombre colors, the light and shade of her fiction, with the skill of a consummate artist."—*The Eagle.*

IX.—The Style is Interesting.

"The style of this writer for purity, perspicuity, and elegance, is something greatly to be commended. It is free from imitations, mannerisms, and tricks of every kind."—*The Argus.*

"The translations do justice to the vivid, piquant style of the original; and the story is full of movement and crowded with instructive and entertaining incident."—*The Chicago Post.*

"The interest of the book does not depend upon its characters nor its incidents, nor yet on its charming style, but in its general harmony of composition."—*Day Book.*

X.—Everybody is Reading them.

"Our people seem to have stopped reading French novels, and English works are complained of as dull. Miss Muhlbach precisely supplies the public want."

"The novels of Clara Mundt are being read by every one."—*Times.*

"Muhlbach's novels have a world-wide reputation, and are read with avidity, as fast as issued from the press."—*Springfield Republican.*

"They are winning a wide and deserved popularity in this country."—*State Journal.*

Oxygenized Air,

A CURE FOR

CATARRH

AND DISEASES OF THE THROAT AND LUNGS,

Applied by

DR. C. L. BLOOD,

No. 9 Montgomery Place,

BOSTON, MASS.

—:0:—

CHRONIC CATARRH.

Why entertain this loathsome disease when relief can be obtained? We meet those every day who are suffering from Catarrh to such an extent, that the Air Passages in the head are in a partly decomposed condition,—the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.

Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is invariably caused by humoral or inflammatory blood, by which the mucous membrane is made sore or inflamed, producing a copious effusion of viscid matter. If it be produced by Scrofula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the Bronchial into the air vesicles, and such is the excoriating, or scalding property of the matter, its contact with the delicate linings of the air-cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.

Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation,—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from those diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a full description of these diseases.

Out of the many thousands of testimonials received we publish the following:

Dr. C. L. Blood,—

Dear Sir:—I desire to give you my testimony in regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and Consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon our suffering race, and hope the day is not far distant when every intelligent physician will adopt your system in the treatment of all forms of chronic disease.

Fraternally yours,
L. M. LEE, M. D.,
No. 193 Westminster Street, Providence.

Dr. C. L. Blood,—

My Dear Sir:—I have tested your remedy, "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases, that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.

Respectfully yours,

Rev. B. TOMLINSON,

Plymouth, Mass.

A Library of Universal Information.

THE NEW

American Cyclopædia :

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE.

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA

AIDED BY A NUMEROUS SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE.

In 16 large volumes, 8vo.

750 double column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he be so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information.—In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is pre-eminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, worth in itself for purposes of reference at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

Registering all the Important Events of Each Year—Valuable as a Work of Reference.

"It is an enterprise of immense value to the public, and ought to be in every library, public and private, as an invaluable book of reference."
Atlas and Argus, Albany, N. Y.

"We can confidently and conscientiously recommend the Annual Cyclopædia to all who would have an accurate and readable history of contemporary events close at hand and as a safe work of reference."
Evening Traveller.

"It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events too numerous to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*

540 MILES

OF THE

Union Pacific Railroad,

Running West from Omaha

ACROSS THE CONTINENT

ARE NOW COMPLETED.

THE TRACK BEING LAID AND TRAINS RUNNING

Within Ten Miles of the Summit

OF THE ROCKY MOUNTAINS.

The remaining ten miles will be finished as soon as the weather permits the road-bed to be sufficiently packed to receive the rails. The work continues to be pushed forward in the rock cuttings on the western slope with unabated energy, and a much larger force will be employed during the current year than ever before. The prospect that the whole

Grand Line to the Pacific

WILL BE COMPLETED IN 1870,

was never better. The means so far provided for construction have proved ample, and there is no lack of funds for the most vigorous prosecution of the enterprise. These means are divided into four classes:

1.—UNITED STATES BONDS,

Having thirty years to run, and bearing six per cent. currency interest, at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these Bonds is paid by the United States Government, which also pays the Company one half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the Company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, and *no more,* and *only as the road progresses.* The Trustees for the Bondholders, are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of the U. S. House of Representatives, who are responsible for the delivery of these Bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *donation* from the Government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1.50 per acre, at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which $5,000,000 have been paid on the work already done.

The Means sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties (who have already finished over 540 miles), at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations, and all other incidental buildings, and also locomotives, passenger, baggage, and freight cars, and other requisite rolling stock, to an amount that shall not be less than $5,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Union Pacific Company to be $90,000 per mile,

The Total Cost of Eleven Hundred Miles will be as follows:

914 miles, at $68,058	$62,205,012
186 miles, at $90,000	16,740,000
Add discounts on bonds, surveys, &c.	4,500,000
Amount	$83,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

Available Cash Resources for Building Eleven Hundred Miles:

U. S. Bonds	$29,328,000
First Mortgage Bonds	29,328,000
Capital Stock paid in on the work now done,	5,000,000
Land Grant, 14,080,000 acres, at $1.50 per acre,	21,120,000
Total	$85,776,000

The Company have ample facilities for supplying any deficiency that may arise in means for construction. This may be done wholly or in part by additional subscriptions to capital stock.

EARNINGS OF THE COMPANY.

At present the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all of the bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the supervision of Government Officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

FIRST MORTGAGE BONDS

are offered for the present at

90 CENTS ON THE DOLLAR,

they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks.—They pay

Six per Cent. in Gold,

or over

Nine Per Cent.

upon the investment.

Subscriptions will be received in Newport by NATIONAL EXCHANGE BANK, and in New York at the Company's Office, No. 20 Nassau street, and by the

CONTINENTAL NATIONAL BANK, No. 7 Nassau street. CLARK, DODGE & CO., Bankers, No. 51 Wall street. JOHN J. CISCO & SON, Bankers, No. 43 Wall street.

and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express.

Parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP,

showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.
